
INTELLIGENCE ATLAS™

Thirteen Ways EVERYNN Learns

A complete index of EVERYNN's intelligence domains — each one a distinct capability, governed by its own architecture, certified against the EVERYNN Constitutional Standard.

OVERVIEW EDITION — IA-001 — JUNE 2026

INTELLIGENCE ARCHITECTURE

EVRYNN operates through thirteen distinct intelligence domains. Each domain is a governed capability with defined inputs, outputs, trust standards, and explainability requirements. No intelligence domain is published without satisfying all six compliance conditions in the EVRYNN Governance Archive. This document is the canonical index of all active domains as of June 2026.

EVRYNN's intelligence is not a single model. It is a layered architecture of specialized capabilities that each govern a distinct dimension of the styling experience. They share signals, observe constitutional constraints, and compose into recommendations that are always traceable, always explained, and always grounded in what the member has declared.

GOVERNING PRINCIPLE

"Governing documents define products. Products validate governing documents. Publications explain products."

THE THIRTEEN DOMAINS

DOMAIN 01

Personal Style Intelligence™

The identity engine that understands who you are and how you dress.

PUBLISHED / ACTIVE

DOMAIN 02

Closet Intelligence™

Your wardrobe, understood — every piece, its potential, its history.

PUBLISHED / ACTIVE

DOMAIN 03

Confidence Intelligence™

The feedback layer that measures how style decisions land.

PUBLISHED / ACTIVE

DOMAIN 04

Dress Me Intelligence™

The outfit engine that reasons about your life.

PUBLISHED / ACTIVE

DOMAIN 05

Marketplace Intelligence™

Product discovery powered by identity, not inventory.

PUBLISHED / ACTIVE

DOMAIN 06

Partner Intelligence™

The layer that makes every brand partnership earn its place.

PUBLISHED / ACTIVE

DOMAIN 07

Rewards Intelligence™

Loyalty earned through style — not just spending.

PUBLISHED / ACTIVE

DOMAIN 08

Price Intelligence™

Value awareness built into every recommendation.

PUBLISHED / ACTIVE

DOMAIN 09
