
INTELLIGENCE ATLAS™

Travel Intelligence™

Every destination, every day — packed with precision.

ACTIVE / CANONICAL — replaces Trip Intelligence

PURPOSE

Travel Intelligence™ is EVRYNN's destination-aware packing and outfit planning engine. It translates trip context — destination, duration, activities, climate, cultural norms — into a curated, occasion-mapped wardrobe plan. Members arrive at any destination prepared: every day planned, every outfit explained, every gap flagged before departure.

INPUTS

- Destination (city, region, country)
 - Trip duration and travel dates
 - Activity itinerary (business meetings, sightseeing, dining, resort)
 - Climate and weather forecast data for destination
 - Cultural dress norms and modesty requirements
 - Closet Intelligence™ inventory and availability
 - Personal Style Intelligence™ identity and fit preferences
 - Member-declared packing constraints (carry-on only, weight limits)
-

OUTPUTS

- Complete packing list mapped to trip days and activities
 - Day-by-day outfit plan with occasion reasoning
 - Wardrobe gap analysis: what to buy before departure
 - Climate-adjusted outfit modifications
 - Multi-wear optimization: pieces that serve multiple days
 - Cultural appropriateness flags for destination-specific norms
 - Shop recommendations to close packing gaps
-

TRUST MODEL

Travel Intelligence™ treats destination recommendations as guidance grounded in real data, not algorithmic guesses. Climate data, cultural norms, and activity classifications are cited by source tier. The system flags when cultural guidance is general rather than specific, and invites member context when itinerary details are sparse.

EXPLAINABILITY MODEL

Every packing recommendation surfaces its source signal: which activity drove the inclusion of each item, which climate data informed the weather layer, which cultural norm shaped the modesty guidance. Members see the full reasoning chain from trip context to packed item. No recommendation is unexplained.

MEMBER VALUE

Travel Intelligence™ eliminates the anxiety of packing for a trip where the stakes are high and the unknowns are many. Members receive a complete, day-mapped wardrobe plan that accounts for every activity, every climate shift, and every cultural expectation — with every decision explained. Arriving prepared is not luck. It is intelligence.

"Every destination deserves a wardrobe plan as considered as the trip itself."
